HOW DO WE END FGM?

LET'S TAKE A LOOK AT THE WORK HAPPENING....

#BEHINDENDING FGM

A magnifying glass with a yellow handle and a dark blue frame is positioned on the right side of the image. The lens of the magnifying glass is focused on the text 'FGM', which is part of the larger text '#BEHINDENDING FGM'. The background of the entire image is divided into two vertical sections: a yellow section on the left and a purple section on the right. Both sections are filled with a pattern of small, light-colored arrows pointing in various directions.

End FGM EU 2022 Annual Campaign

#BEHINDENDINGFGM

In 2022, the End FGM European Network will explore the question:
How do we end FGM?

We often use the phrase “***we work to end FGM***”, but what is entailed in "ending FGM" and what do we need to effectively address the practice in Europe and beyond?

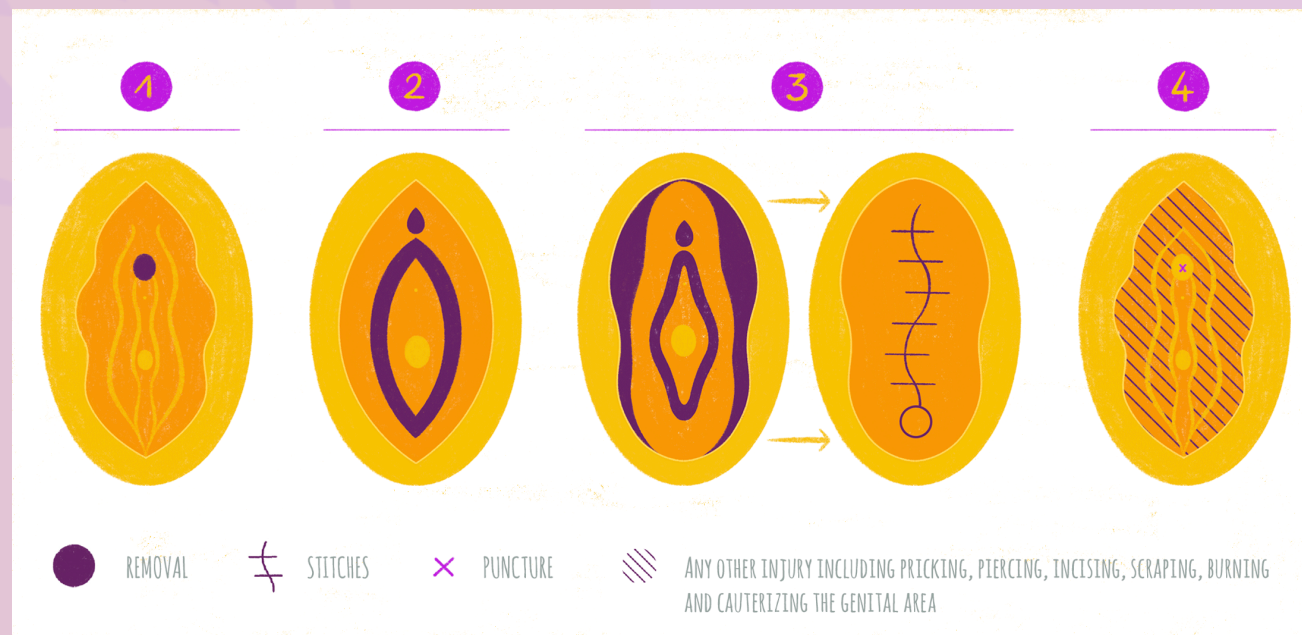

From education and awareness-raising to service provision and research, our Members' different areas of work are **all essential components** in our efforts to eliminate the practice and support those who have been subjected to it. This year, we want to share the precious knowledge of our membership on the various aspects of the movement to end FGM.

WHAT IS FGM?

Female Genital Mutilation is all procedures involving the **removal of the external female genitalia** or **other injury** to the female genital organs for **non-medical reasons**.

There are **4 types** of FGM.

FGM can cause life-lasting physical and psychological **trauma** and is a violation of Human Rights. It is **not prescribed by any religion**. 200 million girls & women alive today have undergone FGM. At current rates, an additional estimated **68 million girls** face being cut **by 2030**. The consequences of the **Covid19 pandemic** are yet to be measured, but it is estimated that 2 million more women & girls are at risk of undergoing FGM due to the disruption caused by the pandemic.

WHAT IS THE END FGM EUROPEAN NETWORK?

The End FGM European Network (End FGM EU) is an umbrella network of **32 European organisations based in 15 European countries**. End FGM EU operates as a meeting ground for communities, NGOs, CSOs and EU level stakeholders to engage, interact and cooperate with one another by sharing experiences and exchanging knowledge.

Our work is primarily to **uplift and carry further our members' efforts** at the European level by building bridges with all relevant actors in Europe and globally. Meanwhile, our members are working at the national level to tackle FGM through **diverse approaches**, from research and education to support services and community engagement.

WHY IS THIS CAMPAIGN IMPORTANT?

This year, we look at the work happening **behind ending FGM**.

We want to give the centre stage to **our Members and Ambassadors** and every individual involved in our movement to end FGM. The people and organisations behind the Network are our strength. They are our power, our expertise and our inspiration. Every day, their hard work gets us closer to our goal.

ELIMINATING THE PRACTICE WILL TAKE ALL OF US.

WE ARE ALL #BEHINDENDINGFGM.

There is a lot happening #BehindEndingFGM.
Advocacy, Education, Research, Support Services and Community
engagement; we need all of these to properly tackle and eliminate such a
deeply rooted practice.
Complex issues call for comprehensive solutions!

The health consequences of FGM need to
continue being researched so that we can
continue improving the support available for
all Survivors!
