WHY AM I COMMITTED IN FIGHTING FEMALE GENITAL MUTILATION?

I want to share my experience and the challenges that I face everyday to fight against FGM.

WHAT DO I LIKE MOST ABOUT BEING AN ACTIVIST?

What I like the most about being an activist is the possibility to fight an unjust act against helpless girls and women, in order to save future generations.

WHAT DO I HOPE FOR, IN REGARD TO FGM POLICIES AND THE PRACTICE, IN THE FUTURE?

I have a positive hope that, as long as we don't give up and as long as we continue to spread awareness about the danger of this harmful practise all over the world (and especially in the affected regions), we will achieve our goals.
